## About Me

I am a Second year computer science student with a passion for technology and innovation. I am currently pursuing my bachelor's degree in CSE(AI&ML) at SRM-IST, Delhi-NCR Campus. One of my strengths is the ability to lead a group project or work collaboratively in a team to achieve an end goal. I am a quick learner and like to take on new challenges.

## Experience & Projects

I am currently in 2<sup>nd</sup> year in CSE(AI&ML). I have made a project linking Python and SQL for a Cinema Booking System. I am currently working on using Java and a weather API to create a weather app interface that can use geolocation to find a person's location and predict weather.

## Education

### 2016-2020
